The International Trade Manual is the definitive book

about export, import and freightforwarding for business people and students of further and higher education. It is vital reading for anyone involved in international commerce and is the leading textbook for students taking International Trade and Services (ITAS) S/NVQ Levels 3 (supervisors) and 4 (managers) in international trade. This comprehensive guide details exactly what you need to know if you want your business to profit from foreign trade. Endorsed by the British Chambers of Commerce and The Institute of Export, its contents include everything from customs documentation to credit risk. Professionals working in international commerce will also find the reference sections invaluable. These contain checklists, forms, relevant legislation, regulations and a directory of further information sources. Trainers, lecturers, students, managers and supervisors will all benefit from using this highly effective training resource. This compilation of WWII-era magazine articles is “a really useful reference guide covering aspects of life in the 1940s . . . packed with information” (Home Front History). This manual brings together articles from stylish contemporary magazines of Britain during the World War II era, including *Britannia & Eve*, the *Illustrated Sporting and Dramatic News*, and *Tatler*, on all aspects of life on the home front. These fascinating articles cover complying with black-out regulations; what to do with the family car; augmenting rationed foods and turning them into tasty meals; contributing to the war effort by keeping livestock, salvaging valuable materials, and growing food—all, of course, while remaining fashionable and keeping up appearances. Includes Part 1, Number 1: Books and Pamphlets, Including Serials and Contributions to Periodicals (January - June) All toxicity data developed by the Columbia National Fisheries Research Laboratory since 1965 was evaluated for quality, and a database established for 4,901 tests

with 410 chemicals (mainly pesticides) and 66 species of aquatic animals. Insects were the most sensitive group, followed by crustaceans, fishes, and amphibians. Rainbow trout was found to be highly sensitive. If your library serves a Latino population, you'll want this book. It will help you better serve the needs of Spanish-speaking patrons of all ages. The author gives background information on various Hispanic groups, explaining some of the cultural differences that can lead to misunderstanding. She then offers a variety of program and collection building ideas. A list of distributors of Spanish-language materials-books, periodicals, AV materials, computer and other educational resources-is provided, as well as Web site addresses of Spanish-language sites. Vocabulary lists for library and computer-related words and phrases and guidelines for correctly writing Spanish words are also included.
