The Air Force and the Great Engine War Nov 10 2021 Examines the 1984 "war" that pitted Pratt and Whitney against GE in head-to-head competition for multi billion dollar defense contracts to provide high performance engines for front line fighter aircraft. The circumstances surrounding the lengthy battle led to the Air Force decision to split future engine sales between the two. Attempts to cut through emotional opinions of the "combatants," to report reality, and to identify lessons learned. Helps the reader to understand the government-to-contractor personality issues; to understand management styles, business expectations and communication skills of key participants.

Dynamic Sales Combustion Jan 25 2023 Leaders... Start Your Sales Engines! Is your sales vehicle stalling, when it should be speeding across the finish line? Like an engine, your sales system was not designed to remain in the parking lot of lost opportunities. Instead, it should be driving transformational sales results and moving your sales vehicle to exciting new destinations. Unfortunately, most sales organizations lack the right sales system and are not prepared for the constant challenges that keep their sales vehicles parked. Negative perceptions, mediocre performance, poor support, and a lack of leadership round out the top issues that make acceleration difficult. Dynamic Sales COMBUSTION introduces business owners, sales leaders, sales professionals, and sales support teams to the Sales Impact System - SIS. The SIS allows you to push the pedal to the metal, create an environment that fosters high performance, and drive sales results to championship levels. The Sales Impact System - SIS provides you and your team with:

- Strategies for an Unbreakable Mindset
- Techniques to acquire Unparalleled Data
- New ways to achieve Unstoppable Gears
- The ability to develop Unmatched Structure

Ericsson's Caloric Engine Nov 22 2022 Excerpt from Ericsson's Caloric Engine: General Agency and Depot for the Sale of Caloric Engines A result more important in view of the number of engines employed is exhibited on the New York Central Railroad, on the line of which there are now some 20 of these engines in daily use. Mr. Chauncey Vibbard, the Superintendent of that road, reports, over his Official signature, after several months' experience with a number of these engines, that they perform an incredible amount Of labor for the small quantity of fuel consumed. One of them, he says, for 96-100 of a cent per hour, does the work formerly done by four men, at an expense of \$25 each per month. Another of the same size, at

the Savannah station, at an expense of eleven cents a day. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
