1945 to 1955 (and later?) Models: An illustrated workshop manual covering Triumph twin-cylinder motorcycles from 1945 to 1955: This is a faithful reproduction of the Factory Workshop Manual No. 11, originally published in the US by Floyd Clymer. The major revision in the later pre-unit factory manuals was the addition of technical specifications for the T120 Bonneville (1959). Unfortunately, those revisions also included the deletion of repair data for rigid frame, sprung hub and 3T models. This makes the Factory Workshop Manual No. 11 the most comprehensive workshop manual available for pre-unit, twin-cylinder Triumph motorcycles up to and including 1962 models as it includes repair and maintenance data for the full line of rigid frame, sprung hub, swing-arm and 350cc models. Much more detailed than the owner's handbook, this manual provides the information necessary for the overhaul of engines, gear boxes, frames, swing-arm, forks, wheels, hubs, carburetors, electrics, etc., essential information for the enthusiast, owner or restorer of these classic motorcycles. Size: 5.5" x 8.5" with 224 pages and 84 illustrations, includes 8 pages of detailed technical specification charts and both an illustration index and a comprehensive index of contents. Applicable to the following models:

5T Speed Twin, T100 Tiger 100, TR5 Trophy, 6T Thunderbird, T110 Tiger 110 and 3T De-Luxe. Includes maintenance and repair data for the following engines: Twin Cylinder 350cc OHV, 500cc OHV and 650cc OHV. This Haynes Manual features complete maintenance and repair information for the Vespa P/PX125, 150 and 200 Scooters built from 1978 to 2017. 200 pages, 60 illustrations, size 5.5 x 8.5 inches. A faithful reproduction of the Floyd Clymer publication of the third edition (1952) of the C.W. Waller Workshop Manual for all models of Ariel motorcycles built between 1933 and 1951. Includes complete technical data, service and maintenance information and comprehensive detailed instructions for the repair and overhaul of all major and minor mechanical and electrical components, making it an invaluable resource for collectors and restorers of these classic motorcycles. There are separate sections that deal with the repair and overhaul procedures for the engine, transmission, wheels and brakes, front forks, frame and carburetor, plus a detailed electrical service section. This is a - must have - reference for any Ariel enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior purchasing of one of these classic motorcycles. Applicable To The Following Models: Four cylinder: 4/F/600cc OHC, 4/F/600cc OHV, 4/G/1,000cc OHV (Cast Iron & Light Alloy). Twin cylinder: 500cc OHV models KG & KH. Single cylinder: 600cc SV model VB. 500cc OHV models VG & VH. 350cc OHV models NH & NG. 250cc OHV models OH, OG, LG & LH. Much of the data is also applicable to later models that utilize these same engines. Out-of-print and unavailable for many years, this book is becoming increasingly more difficult to find on the secondary market and we are pleased to be able to offer this reproduction as a service to all Ariel enthusiasts worldwide. FLHTC Electra Glide Classic (2010-2013) FLHTCU Ultra Classic Electra Glide (2010-2013) FLHTK Electra Glide Ultra Limited (2010-2013) FLHR Road King (2010-2013) FLHRC Road King Classic (2010-2013) FLTRX Road Glide Custom (2010-2013) FLTRU Road Glide
