Lebanon May 02 2021 Lebanon seems a country in the grip of permanent crisis. In recent years it has suffered blow after blow, from Rafiq Hariri's assassination in 2005, to the 2006 July War, to the current Syrian conflict, which has brought a million refugees streaming into the country. This is an account not just of Lebanon's high politics, with its endless rows, walk-outs, machinations and foreign alliances, but also of the politics of everyday life: all the stresses and strains the country's inhabitants face, from electricity black-outs and uncollected rubbish to stagnating wages and property bubbles. Andrew Arsan moves between parliament and the public squares where protesters gather, between luxury high-rises and refugee camps, and between expensive nightclubs and seafront promenades, providing a comprehensive view of Lebanon in the twenty-first century. Where others have treated Lebanon's woes as exceptional, a by-product of its sectarianism and particular vulnerability to regional crises, Arsan argues that there is nothing particular about Lebanon's predicament. Rather, it is a country of the age--one of neoliberal economics, populist fervor, forced displacement, rising xenophobia, and public disillusion. Lebanon, in short, offers us a lens through which to look on our times. Shwayy 'An Haali May 22 2020 Shwayy 'An Haali ("A Little About Myself") will be of tremendous help to independent language learners who want to develop their conversational skills and increase their Arabic vocabulary. Bonus: Free audio tracks available to download and stream from www.lingualism.com. Shwayy 'An Haali presents the results of a survey given to 10 Levantine Arabic speakers, five from Lebanon and five from Syria. Each of the 30 sections in the book begins with a question from the survey followed by the 10 responses and a breakdown of the vocabulary. Each section concludes with a page where you are

encouraged to give your own answer to the question using newly learned words and phrases. The book has been designed in such a way that it can be an effective learning tool for learners at all levels, with glossaries of even the most basic words for beginners, and unvoiced texts and Modern Standard Arabic translations for more advanced learners. Available separately: Anki audio flashcards of the questions and responses for in-depth study.

An Unnecessary Woman Jun 22 2020 A happily misanthropic Middle East divorcee finds refuge in books in a "beautiful and absorbing" novel of late-life crisis (The New York Times). Aaliya is a divorced, childless, and reclusively cranky translator in Beirut nurturing doubts about her latest project: a 900-page avant-garde, linguistically serpentine historiography by a late Chilean existentialist. Honestly, at seventy-two, should she be taking on such a project? Not that Aaliya fears dying. Women in her family live long; her mother is still going crazy. But on this lonely day, hour-by-hour, Aaliya's musings on literature, philosophy, her career, and her aging body, are suddenly invaded by memories of her volatile past. As she tries in vain to ward off these emotional upwellings, Aaliya is faced with an unthinkable disaster that threatens to shatter the little life she has left. In this "meditation on, among other things, aging, politics, literature, loneliness, grief and resilience" (The New York Times), Alameddine conjures "a beguiling narrator . . . who is, like her city, hard to read, hard to take, hard to know and, ultimately, passionately complex" (San Francisco Chronicle). A finalist for the National Book Critics Circle Award and the National Book Award, *An Unnecessary Woman* is "a fun, and often funny . . . grave, powerful . . . [and] extraordinary" (Washington Independent Review of Books) ode to literature and its power to define who we are. "Read it once, read it twice, read other books for a decade or so, and then pick it up and read it anew. This one's a keeper" (The Independent)

SPAN Lebanon 1963 Jul 16 2022 SPAN had begun in 1948 as a consortium between the University of Minnesota and about a dozen colleges that cultivated international understanding through practical academic research. Each year four (sometimes three) countries were selected as destinations. It was—and is, because SPAN continues today—a self-financed program through voluntary donations by businesses in the Upper Midwest as well as by contributions from the participants themselves (known as SPANners). The program was oriented toward upper classmen (in that age of gender insensitive terminology) so applicants were usually students in their Junior (or third) year of undergraduate studies.

Situational Levantine Arabic is designed to help elementary and intermediate learners succeed at critical moments during everyday communicative tasks. (See the Table of Contents for the full list of chapters.) • Each chapter includes several mini-dialogues and an extended dialogue in authentic, everyday Levantine Arabic. • Arabic script with phonemic transcription and English translations. • Hundreds of language and culture notes. • Lists of key vocabulary and expressions. • Free audio download available at www.Lingualism.com. Learning natural, idiomatic phrasing and vocabulary is essential to both listening and speaking, not only for living in Lebanon or another Levantine Arabic speaking country, but also for communicating in Arabic with immigrants in your own country. Beirut Lebanese is the variety of Levantine Arabic featured in Haki Kill Yoom. That said, you should find it easy to communicate with people throughout the Levant region (Syria, Palestine, Jordan, Lebanon) using what you learn from this book. Of course, there may be subtle differences in pronunciation, vocabulary, and even grammar, but these you can note, as needed, when dealing with speakers from other parts of the Levant to hone your style to match theirs, if that is your goal. This is not a course book with chapters that build on each other and need to be studied in order. Use the Table of Contents at the front of the book (also located on the back cover of the paperback edition, for your convenience) to find the topic that interests you for your immediate or future communicative goals. Of course, you're not going to go out into the real world and have conversations with people that follow the dialogues line by line. The purpose of the dialogues is to teach you different words and phrases that you can use and that you may hear. Synonyms, alternative expressions, and supplementary vocabulary are provided to help you form your own sentences to express yourself and to be prepared for the variety of possible things you may hear people say to you. By studying the dialogues, learning new vocabulary and key expressions, and listening to the accompanying audio, you will soon find yourself able to express yourself with confidence and understand people in Levantine Arabic better.

Speak Lebanese Jul 28 2023 The Lebanese language, in its current form, is only a spoken language. Despite the common misconception that Lebanese is a form of the Arabic language, the Lebanese language has evolved from its original Aramaic form to a language highly differentiated from the Arabic language. Lebanese people have adopted Arabic as their written language. However, if you are interested in learning a language that allows you to communicate with people in Lebanon, you should know that speaking Arabic in Beirut is like speaking Spanish in Rome. Some people

might understand you but nobody will reply back in Arabic. Many language self-help books provide a range of translated phrases and simulated dialogue. 'SPEAK LEBANESE' is not a book of phrases. The aim of this book is to provide an understanding of the language from a grammatical perspective. You will learn through this book how to pronounce the letters, the rules for conjugating most Lebanese verbs (with a supplemental library of 426 verbs each conjugated in 6 tenses,) you will find a brief English-Lebanese dictionary of commonly used words and tips for using Lebanese words properly in a sentence. It is important to know that countless dialect variations exist in Lebanon. However, the differences are not significant and all Lebanese people understand each other easily. This book offers one of the forms of these dialects and tries to choose the simplest form of communication when many options exist.

MarHaba Dec 29 2020 (*NEW* - Downloadable audio files are now available at this link: <http://www.georgenicolasel-hage.com/marhaba-a-course-in-levantine-arabic---lebanese-dialect.html>). This book is a basic, direct and self-guided handbook to learn Levantine dialect. It is a simple, easy to use textbook for both the motivated student and teacher alike. It is useful for beginners with no knowledge of Arabic and for those who have had about a semester or two of either dialect or MSA. It is particularly helpful for people who are going to travel to the Levant for the first time or those who have lived there for a while and need to master and reinforce what they have learned. The book is designed for foreign students who have little or no knowledge of Arabic, formal or informal. It can be used by students themselves on their own, or with the help of an instructor or a tutor. Basically every word is introduced in three forms: Arabic form, transliteration form and English meaning. A beginner non-native who only desires to speak and communicate orally can rely on transliteration and English, while a more experienced student, a heritage student or a non-native with a year of exposure to Arabic who can read and has learned some basic survival vocabulary, may also benefit from the Arabic script and the grammatical notes available in the book. Even if you are well versed in MSA, you still need to have this book. You may already be able to read the newspaper headlines or listen to the news and read a street sign, but it will sound very awkward to use MSA when you meet and greet someone, need a taxi, ask for directions, bargain and negotiate, open a bank account, order a meal or a sandwich, chat with someone in the street or in a café, enter a supermarket or a store, ask for the time, or make an appointment and get to know someone on a personal or even professional level, etc. The book is divided into 72 sections, and 24 lessons, mainly by topic. Each section contains pertinent vocabulary needed and used when dealing with the situation at hand. So if you are looking for a word about clothing, or medicine, for example, you simply look in that particular section. There are also sufficient exercises in translation with answers provided for you to doublecheck and verify your knowledge. Do the exercise first before you look up the answer. Continuously test yourself, memorize new words, read and speak out loud even when you are alone and pick the brain of a native friend or acquaintance. Lebanese, and Arabs in general, are impressed when you attempt to speak Arabic with them. They will go out of their way to help you and make your acquaintance. However, they will also try first to practice their English or French with you. Most of them are bilingual or even trilingual. Do not fall for this. Insist on using your Arabic first. The best way to learn a foreign language is through total immersion. Go ahead, immerse yourself. You will be forced to float. Drowning is not an option. You are too smart to drown. Study this book, and find a group of natives to chat with. Better yet, visit Lebanon and have some maza, tabbouli and araq. Then, we'll talk. Do not be afraid to make mistakes. Keep on trying. Practice makes perfect.

Lebanese Arabic Phrasebook Vol. 1 Aug 29 2023 A very practical way to learn Lebanese This is a Lebanese Arabic phrasebook, in a sense that it is designed to both: 1- Give you all you need to know to get by speaking Lebanese when travelling to Lebanon 2- Offer you a very practical and easy way of learning the dialect Method found to be very efficient by students The method and phrases used in this book have been developing since 2011 through my teachings of the Lebanese dialect through video lessons on youtube, as well as private lessons

on skype. They have been tweaked and are constantly evolving through the feedback of the students, focusing on what they find to be useful and efficient. Every phrase is linked to a video so you could perfect the pronunciation. The most important aspect of learning a new language is to hear it being spoken by natives. Especially since Lebanese is considered as "spoken Arabic." That is why the advantage of this book is that EVERY word and sentence used, is linked to the video in which it was taught, so you can hear it, and try to master the pronunciation. Translation and Transliteration Each English phrase is translated to Lebanese using the Arabic alphabet for those who are Arabic literate, and then in its turn transliterated to the Latin alphabet for those who aren't. Exercises and Puzzles In order to help you master the material, there are exercises and puzzle at the end of the book, such as crosswords and word search.

Native Tongue, Stranger Talk Dec 09 2021 Can a reality lived in Arabic be expressed in French? Can a French-language literary work speak Arabic? In *Native Tongue, Stranger Talk* Hartman shows how Lebanese women authors use spoken Arabic to disrupt literary French, with sometimes surprising results. Challenging the common claim that these writers express a Francophile or "colonized" consciousness, this book demonstrates how Lebanese women writers actively question the political and cultural meaning of writing in French in Lebanon. Hartman argues that their innovative language inscribes messages about society into their novels by disrupting class-status hierarchies, narrow ethno-religious identities, and rigid gender roles. Because the languages of these texts reflect the crucial issues of their times, *Native Tongue, Stranger Talk* guides the reader through three key periods of Lebanese history: the French Mandate and Early Independence, the Civil War, and the postwar period. Three novels are discussed in each time period, exposing the contours of how the authors "write Arabic in French" to invent new literary languages.

(Un)Civil War of Words May 14 2022 As the war on terror rages, another battleground has quickly taken shape and is being waged on daily newscasts around the world. In the Arab world, al-Jazeera and Al-Arabiya are leading the fight. But do these news networks simply provide the news? Or, are they, as westerners suspect, tools used by governments and terrorists alike to relay their message to the man on the street as both Arab and Western leaders struggle to win the hearts and minds of millions of people? Fandy examines the impact that these and other news organizations have had on the war on terror, on the Arab world, and on the relationships that Arab nations share with each other, as well as those they share with the West. Focusing on al-Jazeera and other Arab networks, Fandy examines the battle between the Arab world and the West through the popular medium of television. He explores how autocratic governments control the media in order to preserve their own power while simultaneously engaging in a war of words, with their neighbors, the West, or many times, both.

Lebanese Blonde Nov 08 2021 Lebanese Blonde takes place in 1975-76 at the beginning of Lebanon's sectarian civil war. Set primarily in the Toledo, Ohio, "Little Syria" community, it is the story of two immigrant cousins: Aboodeh, a self-styled entrepreneur; and Samir, his young, reluctant accomplice. Together the two concoct a scheme to import Lebanese Blonde, a potent strain of hashish, into the United States, using the family's mortuary business as a cover. When Teyib, a newly arrived war refugee, stumbles onto their plans, his clumsy efforts to gain acceptance raise suspicion. Who is this mysterious "cousin," and what dangers does his presence pose? Aboodeh and Samir's problems grow still more serious when a shipment goes awry and their links to the war-ravaged homeland are severed. Soon it's not just Aboodeh and Samir's livelihoods and futures that are imperiled, but the stability of the entire family.

Modeling the Intonation of Lebanese Arabic Using the Autosegmental-metrical Framework Aug 25 2020 This thesis develops a model of Lebanese Arabic intonation using the Autosegmental-Metrical framework of intonational phonology, and investigates certain aspects of that model experimentally. The proposed model of Lebanese Arabic intonation (chapter 2) posits a prosodic hierarchy for the language, which comprises three prominence levels- lexical stress, pitch accent and nuclear accent, and three intonationally-relevant prosodic constituents- the intonational phrase, the intermediate phrase and the prosodic word. The model accounts for the tonal patterns of the language using a tonal inventory of pitch accents, phrase accents and boundary tones. Pitch accents can be monotonal or bitonal, and associate to lexically stressed syllables, contributing to the prominence patterns of the language. Phrase accents mark the right edges of intermediate phrases and have a secondary association to the right edge of the nuclear accented word. Boundary tones mark the edges of intonational phrases. Three tonal implementation rules are also postulated for the language- downstep, upstep, and final lowering. The quantitative analysis investigates cues to the three prominence levels, prosodic boundary types, and also examines the rising bitonal pitch accents posited for the language. It is found that accented and nuclear accented syllables are higher in pitch, longer, louder, and

display more peripheral vowel formant characteristics than stressed but unaccented vowels (chapter 3). The investigation of the intonational and phonetic realization of broad versus narrow focus in that chapter also shows that the relationship between target peaks within an utterance plays a role in signaling a particular focus interpretation. As for the investigation of prosodic boundaries (chapter 4), it is found that accented syllables preceding the right edge of intonational phrase, intermediate phrase, and prosodic word boundaries display progressively earlier peak alignment the higher the level of the boundary. Accordingly, peak alignment in Lebanese Arabic is argued to constitute a phonetic correlate for prosodic constituency in the language. The investigation of the rising bitonal pitch accents (chapter 5) shows that the two turning points of the rise show stable alignment and scaling characteristics, while the accent gesture as a whole displays an invariant time course. Peak alignment differences within these rising bitonal accents provide confirmation for their phonological representation as L+H* accents.

Who is What and What is Who Mar 24 2023 Who is What and What is Who: the Morphosyntax of Arabic WH is a comprehensive book that deals with one of the most controversial phenomena in syntax, Parametric Variation. In particular, the book offers an in-depth, micro-parametric analysis of all the strategies used in wh-question formation and the variation in these observed in modern Arabic dialects. Unlike traditional analyses of this element of Arabic linguistics, the approach developed here is based on the morphology-syntax interface, as well as the syntax-phonology interface in addressing parametric variation. The findings of the study detailed in this book are also placed in perspective through an examination of the possibilities that Universal Grammar offers languages in terms of building wh-dependencies, including topicalisation, relativization and variable binding. Overall, the book provides a solid foundation in various aspects of the contemporary syntax of modern Arabic dialects.

The Lebanese-Phoenician Nationalist Movement Jun 03 2021 The question of belonging has formed the basis of the political, religious and cultural tensions in Lebanon, to

the point that sectarian conflict on the country's future contributed significantly to the outbreak of civil war in 1975. This book focuses on the development of the Phoenician-Lebanese movement that struggled against the hegemonic status of Arabic language and culture. The Phoenician-Lebanese were a predominantly Maronite Christian group who attempted to remove themselves from the Muslim and Arab world throughout the twentieth century. Their demands for self-definition as a nation and their desire to establish their own culture were rooted in the concept of their ancient Phoenician past. Basilius Bawardi examines four prominent authors who formed the basis on which all engaged so-called Phoenician literature was built: Sharl Qurm, Sa'id 'Aql, Mayy Murr and Muris 'Awwad. The literary corpus of these writers was a critical component of the political activity that strove to distinguish the native Lebanese inhabitants from their Arab-Muslim neighbours. Studying these authors' works in both a literary and historical way, Bawardi shows how language was used to promote a specific political agenda and identifies the strong connections between language, literature and nation building. As well as revealing the nationalist struggle as it emerges in prose and poetry, the book discusses the history and formation of modern day Lebanon and why language and literature are so crucial for members of a national minority.

Perspectives on Arabic Linguistics XXVII Aug 05 2021 The study of Arabic dialects has been an important and rich area of research over the past thirty-five years or so, with significant implications for modern linguistic analysis. The current volume builds on this tradition with ten scholarly contributions that provide novel data and analyses in multiple areas of Arabic linguistics: Syntax and its interfaces; regional and sociolinguistic variation; and first language acquisition. The linguistic facts in the volume are drawn from the various Arabic dialects spoken in North Africa, Egypt, the Arabian Peninsula, the Levant, and Standard Arabic, and the analyses proposed reflect current approaches in linguistic theory. The volume, therefore, should be of interest to formal linguists, sociolinguists, historical linguists, dialectologists, as well as researchers on first language acquisition. It is our hope that the papers in this volume will spur more interest in and research on further aspects of Arabic linguistics.

International Opportunities in the Arts Jan 10 2022 This book is a compilation of papers derived from talks, presented at TransCultural Exchange's 2018 International Conference on Opportunities in the Arts. The aim of these talks was to inspire artists to think across disciplines and cultures and to suggest other career models beyond the typical studio to gallery/museum model. Much of this content is unique in that it not only addresses the practical needs of artists but, even more importantly, it does so in the context of today's global reality. As artists have noted on post-Conference surveys, this information is "the missing link in the art world; the bridge between academic and real-world practice; between a local and international career in the arts." By making this information available long-after the Conference's end and to those who could not directly participate in the Conference, many more artists will have access to where to find jobs/residency programs and funding for their work, information on how to put together successful residency applications, how to market their work, and other professional development programming. In addition, they (and interested members of the public) will have access to the Conference talks on what leading artists are doing across disciplines, with new technologies, and in the public sphere.

In Translation Jul 04 2021 Since the late 1960s Sheila Fischman has worked tirelessly at making the best works of Québécois literature available to English-language readers. Anglophones who have read works by Michel Tremblay, Jacques Poulin, Yves Beauchemin, François Gravel, Anne Hébert, Roch Carrier, and Marie-Claire Blais most likely know these works only through Fischman's subtly and faithfully crafted translations. In Translation celebrates Fischman's more than 150 book-length translations from French to English. It combines essays on the friendships created through translation with essays on the art of

translation and on the changing context of literary translation in Canada. Distinguished contributors include Alberto Manguel, Commissioner of Official Languages Graham Fraser, authors Gaétan Soucy, Lise Bissonnette, and Louise Desjardins, and fellow-translators Lori Saint Martin, Michael Henry Heim, Luise von Flotow, and Kathy Mezei. The volume also includes interviews with Fischman and a selection of her prose. A fitting tribute to an outstanding career, In Translation illuminates the artistry behind a difficult craft by considering the work of one of its finest practitioners.

The Breakdown of the State in Lebanon, 1967-1976 Oct 27 2020 Why did the Lebanese state, the most open and democratic political system in the Middle East, break down between 1967 and 1976? In this major contribution to the debate, Fazel el-Khazen rejects the standard explanations of the Lebanese Civil War and argues instead that the causes were due to the official state ideology, which recognized diversity, dissent and a highly pluralistic population, and then specific external factors: pressures from the Arab-Israeli Conflict, inter-Arab rivalries, and the Palestine Liberation Organization's close connection to Lebanese politics. Using an historical analysis, el-Khazen sheds light on the political situation of the country in the lead up to the conflict and the major role Lebanon's neighbours had in the events. The detailed and comprehensive account uses interviews with the key protagonists in the civil war and analysis of unpublished sources to reveal how and why the breakdown took place.
