Selections from the Spectator Nov 20 2022 Originally published in 1909, this book contains a selection of essays by the English man of letters and politician Joseph Addison (1672-1719). The essays were selected from *The Spectator*, the magazine founded by Addison and Richard Steele, which ran from 1711 to 1712. An editorial introduction is included, along with notes. This book will be of value to anyone with an interest in the writings of Addison and *The Spectator*.

The Greatest Traitor Jan 10 2022 One night in August 1323, a captive rebel baron, Sir Roger Mortimer, drugged his guards and escaped from the Tower of London. With the king's men-at-arms in pursuit he fled to the south coast and sailed to France. There he was joined by Isabella, the Queen of England, who threw herself into his arms. A year later, as lovers, they returned with an invading army: King Edward II's forces crumbled before them and Mortimer took power. He removed Edward II in the first deposition of a monarch in British history. Then the ex-king was apparently murdered, some said with a red-hot poker, in Berkeley Castle. Brutal, intelligent, passionate, profligate, imaginative, and violent, Sir Roger Mortimer was an extraordinary character. It is not surprising that the Queen lost her heart to him. Nor is it surprising that his contemporaries were terrified of him. But until now no one has appreciated the full evil genius of the man. This first biography, *The Greatest Traitor* by Ian Mortimer, reveals not only Mortimer's career as a feudal lord, a governor of Ireland, a rebel leader, and a dictator of England, but also the truth of what happened that night in Berkeley Castle.

Current Topics In Physics: In Honor Of Sir Roger J Elliott Dec 29 2020 This indispensable book is a compilation of invited talks delivered at the symposium, "Current Topics in Physics" held in Mexico City in June 2003, to celebrate the 75th birthday of Professor Sir Roger Elliott. The contributions have been prepared by research associates, former students, post-doctoral fellows and colleagues of Professor Elliott, many of them leading scientists — as Sir Roger himself — in important research institutes around the world. The book gives a very timely and comprehensive overview of various key areas of modern condensed matter and statistical physics. 19 original contributions are included, grouped in three main areas: disorder and dynamical systems, structures and glasses, electrical and magnetic properties. The contributions are by many of the foremost researchers in the field of condensed matter and statistical physics. In particular, contributions by such prominent scientists as M E Fisher, A A Maradudin, M F Thorpe, M Balkanski, T Fujiwara, and of course Sir Roger Elliott himself make this book a rewarding read.

The Story of Sir Roger de Coverly Nov 27 2020

Days with Sir Roger De Coverley Sep 18 2022 'Days with Sir Roger De Coverley' is an essay by the duo Richard Steele and Joseph Addison. It

gives a fictional account of visiting an English gentleman at his country estate and the quirky characters who live and work there. The narrator spends time with Sir Roger, touring his expansive country seat and listens to him as he recounts his life's experiences. We also get to see a Sunday service in the estate chapel, with Sir Roger himself making sure that nobody nods off to sleep during the sermon...

The Sir Roger De Coverley Papers Feb 11 2022

Trial of Sir Roger Casement Mar 12 2022 Casement, having held divers high appointments under the British Crown, having been knighted for his services, and having retired on a pension, upon the outbreak of hostilities proceeded to Germany where he was actively employed in inciting the Irish prisoners of war to join the German arms against England. The frustration of his attempt to run men, arms and ammunition with a view to raising a rebellion in Ireland reads more like some tale of strange adventure than sober history. The speech by Casement from the dock after conviction is one of the most dramatic in the annals of British procedure.

The De Coverley Papers, From 'The Spectator' May 14 2022 This witty and brilliant work groups together the essays from The Spectator about the character of Sir Roger de Coverley, who was a key figure in English Literature. Sir Roger de Coverley, a fictional character created by Joseph Addison, was a Worcestershire baronet and was meant to portray a typical landed country gentleman. Moreover, he was a member of the fictitious Spectator Club, and the de Coverley writings contained delightful vignettes of early 18th-century English life that were "The Spectator's" best feature.
