Facilitating a Collegial Department in Higher Education Aug 28 2023
Written for department chairs and deans, this well-researched resource offers a practical reference for how to create and sustain a more civil and harmonious departmental culture. Filled with useful information, including relevant case law, the book gives readers what they need to know to enhance the climate, culture, and collegiality in an academic department, as well as the university. Praise for Facilitating a Collegial Department in*

Higher Education "Bob Cipriano has provided a book that addresses department civility—a critical, ongoing problem in higher education. The book is rich in examples, best practices, and strategies for dealing with individuals as well as ways to build collegial departments?. Not only is the book packed with information, the author also has an engaging writing style and wit."—Daniel W. Wheeler, higher education consultant; professor emeritus and former head, University of Nebraska-Lincoln "Pull out a fresh highlighter before opening this book! Be prepared to immediately collect practical, usable tools for building civility in your department from an experienced chair and successful workshop presenter."—Sharon Brookshire, director of conferences, Division of Continuing Education, Kansas State University "Department chairs' greatest job dissatisfaction emanates from colleagues in conflict. Bob Cipriano teaches and guides us, first how to deal with toxic colleagues and then how to turn your department into a collegial environment."—Walter Gmelch, dean, School of Education, University of San Francisco

Department 19 May 25 2023 Jamie Carpenter's father is dead, his mother is missing, and he was just rescued by an enormous creature named Frankenstein. Now Jamie is pulled into a secret organization responsible for policing the supernatural, founded more than a century ago by Abraham Van Helsing. . . . Department Nineteen takes us through history, across Europe, and beyond - from the cobbled streets of Victorian London to prohibition-era New York, from the icy wastes of Arctic Russia to the treacherous mountains of Transylvania. Part modern thriller, part classic horror, it's packed with mystery, mayhem, and a level of suspense that makes a Darren Shan novel look like a romantic comedy.

The Creature Department Jul 03 2021 "Stunning. . . a bit like if you took Charlie and the Chocolate Factory and Monsters Inc. and shoved them in a TARDIS."—Buzzfeed It's a tentacled, inventive, gooey, world in there. . . . Elliot Von Doppler and his friend Leslie think nothing ever happens in Bickleburgh, except inside the gleaming headquarters of DENKi-3000—the world's eighth-largest electronics factory. Beneath the glass towers and glittering skywalks, there's a rambling old mansion from which all the company's amazing inventions spring forth. And no one

except Uncle Archie knows what's behind the second-to-last door at the end of the hall. Until Elliot and Leslie are invited to take a glimpse inside. They find stooped, troll-like creatures with jutting jaws and broken teeth. Tiny winged things that sparkle as they fly. And huge, hulking, hairy nonhumans (with horns). It is unlike anything they've ever seen. But when Chuck Brickweather threatens to shut down the DENKi-3000 factory if a new product isn't presented soon, the creatures know they are in danger. And when Uncle Archie vanishes, it's up to Elliot, Leslie, and every one of the unusual, er, "employees" to create an invention so astonishing it will save the Creature Department.

Administrative Report of the Directors of Departments Under the Civil Administrative Code Together with the Adjutant General's Report ... Nov 07 2021 Vols. for 1917/18- contain reports of the following departments: Dept. of Finance, Dept. of Agriculture, Dept. of Labor, Dept. of Mines and Minerals, Dept. of Public Works and Buildings, Dept. of Public Welfare, Dept. of Public Health, Dept. of Trade and Commerce, Dept. of Registration and Education, Military and Naval Dept.

Moving Medical Education Forward Apr 24 2023 The Department of Medical Education (DME) at the University of Illinois at Chicago is the oldest continuously operating medical education department in the world. Founded in 1958 by George Miller and Christine McGuire, the Department's faculty, fellows, and students have been at the forefront of the practice and study of medical education. DME is a World Health Organization Collaborating Center for health professions education, and has achieved international renown. This volume, commemorating the 50th anniversary of DME, collects papers representing major aspects of the work of the Department's faculty in 2009, along with a tribute to the founders and an original history of the Department's first fifty years.

World of Department Stores Jul 15 2022 "This is the first beautifully illustrated book on department stores, with photographs and ephemera from all over the world. Born in the Gilded Age in France, the department store grew up thanks to the industrial revolution, the rise of the middle class, and the invention of steel-frame architecture and the elevator. Spectacular entrances led to marble staircases and floor after floor of

merchandise and amenities. These emporiums also inspired a whole new way of merchandising: shopping became an entertainment rather than a laborious grind; posters and advertisements were made by the great artists of the time; and elaborate shop windows attracted thousands of people during the holidays. The department store quickly spread through Europe and Asia and then the New World, and great architects were employed to build these temples of consumerism, where dreams were created and then fulfilled"--

How to Chair a Department Mar 23 2023 A practical, accessible handbook for chairing a department. Over the course of a typical academic career, most faculty will serve at least one term as chair of a department. It's a leadership and service role that's at the very heart of faculty satisfaction and student success, yet few receive any training on how to do the job. How to Chair a Department is a practical, accessible handbook for new and prospective chairs, providing both principles and practices for effective departmental leadership. Based on his dozen years of chairing departments, Kevin Dettmar provides invaluable advice on:

- hiring tenure-track and visiting faculty*
- mentoring faculty colleagues at every stage of their careers*
- working with staff and other departmental administrators*
- managing department resources and budgets*
- meeting the needs of students*
- dealing with stress and conflict*
- connecting the department to the larger university or college as a whole*
- overseeing the department's curricula*
- maintaining a scholarly or creative profile*
- preparing for career moves after chairing a department*

How to Chair a Department demystifies this important faculty position and argues that the role of chair, though sometimes seen as a burden, can prove to be a genuine opportunity for personal and professional growth.

Official Opinions of the Attorneys General of the United States Mar 11 2022

The Department of Rare Books and Special Collections May 13 2022 International Bestseller "With its countless revelations about the dusty

realms of rare books, a likable librarian sleuth who has just the right balance of compassion and wit, and a library setting that is teeming with secrets, *The Department of Rare Books and Special Collections* is a rare treat for readers. I loved this book!"—Matthew Sullivan, author of *Midnight at the Bright Ideas Bookstore*

Anxious People meets the delights of bookish fiction in a stunning debut following a librarian whose quiet life is turned upside down when a priceless manuscript goes missing. Soon she has to ask: what holds more secrets in the library—the ancient books shelved in the stacks, or the people who preserve them? Liesl Weiss long ago learned to be content working behind the scenes in the distinguished rare books department of a large university, managing details and working behind the scenes to make the head of the department look good. But when her boss has a stroke and she's left to run things, she discovers that the library's most prized manuscript is missing. Liesl tries to sound the alarm and inform the police about the missing priceless book, but is told repeatedly to keep quiet, to keep the doors open and the donors happy. But then a librarian unexpectedly stops showing up to work. Liesl must investigate both disappearances, unspooling her colleagues' pasts like the threads of a rare book binding as it becomes clear that someone in the department must be responsible for the theft. What Liesl discovers about the dusty manuscripts she has worked among for so long—and about the people who care for and revere them—shakes the very foundation on which she has built her life. *The Department of Rare Books and Special Collections* is a sparkling book-club read about a woman struggling to step out from behind the shadows of powerful and unreliable men, and reveals the dark edge of obsession running through the most devoted bookworms. Assessment of Department of Defense Basic Research Jul 23 2020 The Department of Defense (DOD) supports basic research to advance fundamental knowledge in fields important to national defense. Over the past six years, however, several groups have raised concern about

whether the nature of DOD-funded basic research is changing. The concerns include these: Funds are being spent for research that does not fall under DOD's definition of basic research; reporting requirements have become cumbersome and onerous; and basic research is handled differently by the three services. To explore these concerns, the Congress directed DOD to request a study from the National Research Council (NRC) about the nature of basic research now being funded by the Department. Specifically the NRC was to determine if the programs in the DOD basic research portfolio are consistent with the DOD definition of basic research and with the characteristics associated with fundamental research.

In the Shadow of Justice Nov 19 2022 "In the Shadow of Justice tells the story of how liberal political philosophy was transformed in the second half of the twentieth century under the influence of John Rawls. In this first-ever history of contemporary liberal theory, Katrina Forrester shows how liberal egalitarianism--a set of ideas about justice, equality, obligation, and the state--became dominant, and traces its emergence from the political and ideological context of the postwar United States and Britain. In the aftermath of the civil rights movement and the Vietnam War, Rawls's A Theory of Justice made a particular kind of liberalism essential to political philosophy. Using archival sources, Forrester explores the ascent and legacy of this form of liberalism by examining its origins in midcentury debates among American antistatists

and British egalitarians. She traces the roots of contemporary theories of justice and inequality, civil disobedience, just war, global and intergenerational justice, and population ethics in the 1960s and '70s and beyond. In these years, political philosophers extended, developed, and reshaped this liberalism as they responded to challenges and alternatives on the left and right--from the New International Economic Order to the rise of the New Right. These thinkers remade political philosophy in ways that influenced not only their own trajectory but also that of their critics. Recasting the history of late twentieth-century political thought and providing novel interpretations and fresh perspectives on major political philosophers, In the Shadow of Justice offers a rigorous look at liberalism's ambitions and limits."--

Response of Department of Education In-house Committee, on the Report of the Working Party on Second Language Learning in New Zealand Jul 27 2023

Annual Report of the Department of Education Oct 26 2020 Excerpt from Annual Report of the Department of Education: For the Year Ending June 30, 1964 Pertinent statistics on education in Massachusetts for 1963-1964 are presented here. This report is reorganized into sections and tables for ease in finding and recognizing items of information and to provide for a more direct flow of data from source documents to publication here. The List of Tables shows that the data is presented in two sections according to whether it is fall or end of year information. Each section is further broken down into a series of tables of closely related information. Information in addition to that published in previous years is included to present more of the educational data collected by the Division of Research and Statistics. Definitions and Classifications are similar to those in other years except for financial data which is classified and defined according to Financial Accounting for the Public Schools in Massachusetts. To allow for greater conciseness in presentation, two

major changes were made. Cities and towns are listed alphabetically and followed by regional school districts instead of the four groups of Cities and towns as given previously. Grade organization information is condensed into Elementary (grades 1-6 and 1-8) and Secondary (grades 7-12 and 9-12) instead of the various grade organization breakdowns of previous years. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
