Social Studies in Elementary Education Oct 30 2020 The author wrote this new edition of the most popular elementary social studies methods text on the market with the following three goals in mind: to present the most powerful social studies content and pedagogy for children in elementary school, to offer the material in simple and accessible ways, and to write in a first person active voice. The purpose of this book is to introduce new teachers to the world of social studies teaching and learning in elementary and middle schools. Geography, history, government and the other social sciences are delivered into the palm of the new teacher's hand along with a suite of tools for bringing social studies to life in the classroom. The book is organized into three sections—the first orients the reader to the mission of social studies education to the increasingly diverse children we teach, the second concentrates on the curriculum, and the third deals with instruction, how we plan and teach this curriculum. Three central themes continue to pervade the book—democratic citizenship, diversity, and the social sciences—to ultimately encourage teachers to excite their students about closing the gap between social realities and democratic ideals. An exceptionally strong chapter on multicultural issues (Chapter 2) helps future teachers truly understand the changing demographics of the American classroom.

Instructional Strategies for Middle and High School Social Studies Aug 09 2021 Instructional Strategies for Middle and High School Social Studies: Methods, Assessment, and Classroom Management is an exciting methods-based text that integrates appropriate management and assessment techniques with seven distinct teaching strategies. Writing explicitly for pre-service social studies teachers, veteran teacher educator Bruce E. Larson offers detailed descriptions of a range of instructional strategies, along with guidelines for deciding how and when to use each. Part I offers the foundations for teaching and learning in a social studies classroom, and explores contextual, theoretical, and policy factors that all teachers need to consider before entering the classroom. Part II delivers a range of comprehensive strategies for providing instruction that is appropriate for particular lessons, student abilities, and classroom environments. The practical strategies in Part II build upon the learning theories described in Part I, positioning Instructional Strategies for Middle and High School Social Studies to be the go-to, all-inclusive teacher's guide to the social studies classroom. New to this Edition A list of goals before each chapter presents an overview of the chapter's content focus, and provides an outline for the chapter review. Extensively revised Part I (chapters 1–4) provides an updated review of national standards developed for teaching history, geography, civics, and economics. In-depth applications of the Common Core State Standards for the social studies are also explored. New "Reality Check" feature provides directions for integrating field-based experiences into the chapters, and contextualizes the ideas in the book for a classroom setting. Each chapter in Part II (chapters 5–11) has been expanded to include a section labeled "Enhancing Student Learning with Technology," offering websites, links, and other resources for integrating recent technologies into the classroom. Chapters 5–11 include a new "Making Your Lesson More Meaningful for ELLs" feature, which provides ideas—based on current research and theories about learning language—for engaging ELLs, specific for each instructional strategy. Expanded discussion of the "Understanding by Design" model equips teachers to design learning experiences that promote student understanding by intentionally designing what happens in the classroom, and developing authentic formative assessments of student learning.

Inquiry-Based Global Learning in the K–12 Social Studies Classroom Aug 28 2020 This book, edited by experienced scholars in the field, brings together a diverse array of educators to showcase lessons, activities, and instructional strategies that advance inquiry-oriented global learning. Directly aligned to the College, Career, and Civic Life (C3) Framework for Social Studies State Standard, this work highlights ways in which global learning can seamlessly be interwoven into the disciplines of history, economics, geography, civics, psychology, sociology, and anthropology. Recently adopted by the National Council for the Social Studies, the nation's largest professional organization of history and social studies teachers, the C3 Framework prioritizes inquiry-oriented learning experiences across the social studies disciplines in order to advance critical thinking, problem solving, and participatory skills for engaged citizenship.

Rethinking Social Studies Teacher Education in the Twenty-First Century Jun 18 2022 In this volume teacher educators explicitly and implicitly share their visions for the purposes, experiences, and commitments necessary for social studies teacher preparation in the twenty-first century. It is divided into six sections where authors reconsider: 1) purposes, 2) course curricula, 3) collaboration with on-campus partners, 4) field experiences, 5) community connections, and 6) research and the political nature of social studies teacher education. The chapters within each section provide critical insights for social studies researchers, teacher educators, and teacher education programs. Whether readers begin to question what are we teaching social studies teachers for, who should we collaborate with to advance teacher learning, or how should we engage in the politics of teacher education, this volume leads us to consider what ideas, structures, and connections are most worthwhile for social studies teacher education in the twenty-first century to pursue.

In-service Growth of Social Studies Teachers Jun 26 2020

Design Research in Social Studies Education Feb 24 2023 This edited volume showcases work from the emerging field of design-based research (DBR) within social studies education and explores the unique challenges and opportunities that arise when applying the approach in classrooms. Usually associated with STEM fields, DBR's unique ability to generate practical theories of learning and to engineer theory-driven improvements to practice holds meaningful potential for the social studies. Each chapter describes a different DBR study, exploring the affordances and dilemmas of the approach. Chapters cover such topics as iterative design, using and producing theory, collaborating with educators, and the ways that DBR attends to historical, political, and social context.

Social Studies for a Better World: An Anti-Oppressive Approach for Elementary Educators (Equity and Social Justice in Education) Sep 29 2020 Plan and deliver a curriculum to help your students connect with the humanity of others! In the wake of 2020, we need today's young learners to be prepared to develop solutions to a host of entrenched and complex issues, including systemic racism, massive environmental problems, deep political divisions, and future pandemics that will severely test the effectiveness and equity of our health policies. What better place to start that preparation than with a social studies curriculum that enables elementary students to envision and build a better world? In this engaging guide two experienced social studies educators unpack the oppressions that so often characterize the elementary curriculum—normalization, idealization, heroification, and dramatization—and show how common pitfalls can be replaced with creative solutions. Whether you're a classroom teacher, methods student, or curriculum coordinator, this is a book that can transform your understanding of the social studies disciplines and their power to disrupt the narratives that maintain current inequities.

[Rebooting Social Studies](#) Jan 31 2021 Those facts. Those dates. Those four walls. Those still and petrified fossils of traditional history courses. Sure, it's history, but do we have to turn to tradition for guidance? Let's make it worth the students time. Let's give them

something to take beyond their high school experience. Let's reboot history. The goal of the social studies is to provide students with the tools necessary to be active and productive citizens. History teachers need to assist their students in developing problem-solving skills for real-life scenarios, and this can be done whether we teach students about Ancient Athens or modern Akron, Ohio. The ancient Mediterranean, the Italian Renaissance, and the British East India Company are very distant concepts, far from what our students find as relevant. The same skills can be acquired by studying something nearer to the students' interests and everyday life. So, take a moment to take a step back from the history curriculum, and ask yourself: "What skills will my students need in five years?"

The Status of Social Studies Nov 04 2023 A team of researchers from 35 states across the country developed a survey designed to create a snapshot of social studies teaching and learning in the United States. With over 12,000 responses, it is the largest survey of social studies teachers in over three decades. We asked teachers about their curricular goals, their methods of instruction, their use of technology, and the way they address the needs of English language learners and students with disabilities. We gathered demographic data too, along with inquiries about the teachers' training, their professional development experiences, and even whether they serve as coaches. The enormous data set from this project was analyzed by multiple research teams, each with its own chapter. This volume would be a valuable resource for any professor, doctoral student, or Master's student examining the field of social studies education. It is hard to imagine a research study, topical article, or professional development session concerning social studies that would not quote findings from this book about the current status of social studies. With chapters on such key issues as the teaching of history, how teachers address religion, social studies teachers' use of technology, and how teachers adapt their instruction for students with disabilities or for English language learners, the book's content will immediately be relevant and useful.

Instructional Strategies for Middle and High School Oct 11 2021 Instructional Strategies for Middle and High School is an accessible, practical, and engaging methods textbook that introduces pre-service teachers to various instructional strategies and helps them to decide how and when to use these methods in the classroom. Classrooms are comprised of diverse learners, and aspiring teachers will face complex decisions about the assessment of student learning and classroom management. Veteran teacher educators Bruce Larson and Timothy Keiper offer practical suggestions for ways to integrate effective classroom management and valid assessment techniques with each instructional strategy. Instructional Strategies for Middle and High School equips pre-service teachers with the methodological tools to promote understanding, conceptual awareness, and learning for every child in the classroom. Features and updates to this new edition include: Clear, step-by-step descriptions and illustrative in-class videos of seven instructional techniques and that pre-service teachers can realistically implement within the classroom setting Increased coverage on teaching English language learners, including a "Making Your Lesson More Meaningful for ELLs" feature now included in every instructional strategy chapter "Enhancing Your Teaching With Technology" feature included in every instructional strategy chapter Fresh interior design to better highlight pedagogical elements and key features, all to better engage students Fully revamped and comprehensive companion website, with both student and instructor materials that stress real-world application of strategies, classroom assessment and management.

Teaching Social Studies Mar 28 2023 Teaching Social Studies: A Methods Book for Methods Teachers, features tasks designed to take preservice teachers deep into schools in general and into social studies education in particular. Organized around Joseph Schwab's commonplaces of education and recognizing the role of inquiry as a preferred pedagogy in social studies, the book offers a series of short chapters that highlight learners and learning, subject matter, teachers and teaching, and school context. The 42 chapters describe tasks that the authors assign to their methods students as either in-class or as outside-of-class assignments. The components of each chapter are: > Summary of the task > Description of the exercise (i.e., what students are to do, the necessary resources, the timeframe for completion, grading criteria) > Description of how students respond to the activity > Description of how the task fits into the overall course > List of readings and references > Appendix that supplements the task description

TEACHING OF SOCIAL STUDIES Dec 01 2020 Written in an easy-to-understand style, this text provides a thorough coverage of the essential topics related to the teaching of social studies in secondary and elementary schools. Reflecting on the theoretical knowledge and practical skills required to teach social studies in an effective manner, the text first introduces its readers to the various components, study material, scope and importance of social studies. It then teaches the formulation of instructional objectives in social studies, and brings out the principles of social studies curriculum as well as its relationship with other subjects of the school curriculum. The book focuses mainly on improving the methodological concepts of the social studies teacher, and in doing so, discusses various methods of teaching; evaluation and planning of lessons, units and courses; organization of social studies room and the equipment to be kept in it; utilization of community resources; and implementation of various co-curricular activities. It also examines certain innovative methods of teaching such as team-teaching, micro-teaching and individualized instruction. KEY FEATURES ? Incorporates chapter outline at the beginning and chapter summary at the end of each chapter to help readers review the important topics. ? Provides chapter-end questions for students to drill the topics discussed. ? Discusses various topics with the help of a number of figures and tables that facilitates easy-understanding of the concepts. This book is suitable for a course on Teaching of Social Studies for the students of B.Ed. and M.A. (Education). It can also be used for the in-service teacher education programmes organized by the Central and State education boards.

National Standards for History Jan 26 2023 This sourcebook contains more than twelve hundred easy-to-follow and implement classroom activities created and tested by veteran teachers from all over the country. The activities are arranged by grade level and are keyed to the revised National History Standards, so they can easily be matched to comparable state history standards. This volume offers teachers a treasury of ideas for bringing history alive in grades 5-12, carrying students far beyond their textbooks on active-learning voyages into the past while still meeting required learning content. It also incorporates the History Thinking Skills from the revised National History Standards as well as annotated lists of general and era-specific resources that will help teachers enrich their classes with CD-ROMs, audio-visual material, primary sources, art and music, and various print materials. Grades 5-12

2017 TExES Social Studies 7-12 (232) Jul 08 2021 Are you ready to teach Social Studies in Texas? Social Science Research Apr 04 2021 This book is designed to introduce doctoral and graduate students to the process of conducting scientific research in the social sciences, business, education, public health, and related disciplines. It is a one-stop, comprehensive, and compact source for foundational concepts in behavioral research, and can serve as a stand-alone text or as a supplement to research readings in any doctoral seminar or research methods class. This book is currently used as a research text at universities on six continents and will shortly be available in nine different languages.

Multicultural Social Studies Jul 20 2022 A practical guide provides educators with a way to integrate multicultural themes into the K-12 social studies curriculum, focusing on the goals of student-centered learning while also attending to standards-driven mandates. Social Studies May 18 2022

Social Studies for Secondary Schools Aug 21 2022 Now in its 4th edition, this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history, and the purpose of social studies education. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers, and based in practice and experience, it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; sub-chapters begin with narrower questions that direct attention to specific educational issues. Lesson ideas and materials in the book and online are especially designed to help new teachers to address common core learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms. Chapters include highlighted Learning Activities, Teaching Activities, and Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies, and conclude with recommendations for further reading and links to on-line essays about related social studies topics. Activities are followed by four categories: "Think it over," "Add your voice to the discussion," "Try it yourself," and "It's your classroom." All of these are supported with online teaching material. Designed for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. New in the Fourth Edition Provides a number of new lesson ideas paired with online lesson plans and activity sheets in every chapter Takes a new focus on data-driven, standards-based instruction, especially in relation to the common core curriculum Addresses the interactive nature of learning in updated technology sections Reflects current trends in history education Includes more of what the author has learned from working teachers Offers a wealth of additional on-line material linked to the text

Every Book Is a Social Studies Book Oct 23 2022 This text offers a teacher and student-friendly collection of lessons and activities that help educators use picture books to engage younger students in meaningful social studies activities and bring this critical subject back in elementary schools. In order for today's children to succeed as adults, they need a solid foundation of life skills inculcated at a young age. Social studies is key to building this critical knowledge, yet less attention is being paid to social studies in elementary schools as this subject becomes more essential. The authors of this text have a solution: use picture books as dual-purpose texts that fulfill more than just language arts needs, and take the time dedicated to those lessons to simultaneously teach social studies. Each chapter of this text is organized around one of the National Council for the Social Studies' Ten Thematic Strands, covering diverse and engaging topics ranging from community and individuality to science and technology. This book serves as a vital resource for classroom teachers, methods professors, staff developers, and curriculum writers who prioritize keeping social studies a part of the elementary school curriculum.

Technology in the Middle and Secondary Social Studies Classroom Dec 13 2021 Technology in the Middle and Secondary Social Studies Classroom introduces pre-service teachers to the research underpinning the effective integration of technology into the social studies curriculum. Building off of established theoretical frameworks, veteran social studies teacher educator Scott Scheuerell shows how the implementation of key technologies in the classroom can help foster higher-level thinking among students. Plentiful, user-friendly examples illustrate how specific educational tools—including games, social media, flipped classrooms, and other emerging technologies—spur critical thinking and foster authentic intellectual work. A rigorous study, Technology in the Middle and Secondary Social Studies Classroom provides a comprehensive, up-to-date research framework for conceptualizing successful, technology-rich social studies classrooms.

A Course of Study in Social Studies Jun 06 2021

Social Studies and Diversity Education Apr 16 2022 The preparation of social studies teachers is crucial not only to the project of good education, but, even more broadly, to the cultivation of a healthy democracy and the growth of a nation's citizens. This one-of-a-kind resource features ideas from over 100 of the field's most thoughtful teacher educators reflecting on their best practices and offering specific strategies through which future teachers can learn to teach, thus illuminating the careful planning and deep thinking that go into the preparation of the social studies teachers. While concentrating on daily teaching realities such as lesson planning and meeting national, state, or provincial standards, each contributor also wrestles with the most important current issues on educating teachers for today's increasingly diverse, complex, and global society. Features of this unique teaching resource include: Volume sections that are arranged by both disciplinary organization and approach or activity. Thoughtful introductory section essays that conceptualize each theme, providing a conscientious theoretical overview and analysis of each individual section. Rich and concrete examples of best practice from some of the field's most diverse and highly regarded scholars and teacher educators An index that identifies the appropriate teaching level and teacher education context and links the strategies and ideas that are presented in the essay to the relevant INTASC and NCSS standards for quick reference in classroom planning as well as institutional development and implementation. A much-needed addition to the field, this comprehensive volume will be of value to any teacher interested in social studies or diversity education across age groups and educational contexts.
