Case-Based Reasoning Technology Apr 23 2020 This state-of-the-art survey presents a coherent summary of research and development in case-based reasoning (CBR) undertaken in Germany in recent years. The book opens with a general introduction to CBR presenting the basic ideas and concepts, setting the terminology, and looking at CBR from some new points of view. The main part of the book, consisting of nine chapters, is devoted to detailed presentations of CBR applications successfully performed in various areas. Among these application areas are decision and sales support, text processing, adaptation, planning, design, software engineering, tutoring systems, and medicine. The remaining chapters present areas related to CBR as well as a glossary, a subject index and bibliography.

Permission to Ascend Jan 30 2021 The Great One allowed all things to be. Then there became these supplications for a greater knowledge in the physical world with the questioning, "There has to be more than this? There has to be more than this?" Many have asked that and said that and searched for that for years, thousands and thousands of years. The request for this further information of "there's more than this," has been answered, yes. And you are in the process of it. In *Permission to Ascend*, you become aware of the humility within the self to understand the process that you call ascension. Humility is a requirement in order to get the permission that you need in order to work through this realm. This humility allows your divine force to enter you so that it can descend, and you are the humble carrier of that energy.
