Les droits de l'homme à l'eau potable et l'assainissement dans la pratique Nov 11 2021 La publication synthétise les conclusions et les enseignements tirés jusqu'à présent des travaux sur l'accès équitable à l'eau et à l'assainissement menés dans le cadre du Protocole sur l'eau et la santé, dont le secrétariat est assuré par la CEE-ONU et le bureau régional de l'OMS pour l'Europe. Elle présente les expériences de onze pays de la région pan-européenne qui ont établi des mesures de référence de leur situation en matière d'accès équitable à l'eau et à l'assainissement. Ces expériences ont été possibles grâce à des processus d'auto-évaluation multipartites en examinant les disparités géographiques, les obstacles spécifiques rencontrés par les groupes vulnérables et marginalisés, les problèmes d'accessibilité financière ainsi que le cadre de gouvernance. La publication présente également les mesures techniques et politiques concrètes prises par ces pays pour assurer un accès équitable à l'eau et à l'assainissement. Il examine les expériences nationales en matière d'élaboration de plans d'action pour l'accès équitable et examine les mesures pratiques qui peuvent être prises pour améliorer la planification et le financement de plans d'action spécifiques. Les exemples et l'analyse des tendances communes et des considérations importantes présentés dans cette publication visent à inspirer de nouvelles actions pour parvenir à un accès équitable à l'eau et à l'assainissement dans la région paneuropéenne. Aux niveaux national et local, il peut encourager et soutenir les décideurs et les responsables politiques, ainsi que d'autres acteurs clés, à s'engager dans des auto-évaluations qui sont essentielles pour identifier des actions spécifiques visant à combler les lacunes en matière d'accès équitable, à élaborer des approches stratégiques pour financer un accès équitable et à mettre ensuite en œuvre des actions pour assurer un accès équitable à l'eau et à l'assainissement pour tous les membres de la population.

Les filets sociaux en Afrique Sep 29 2020 The need for safety nets in Sub-Saharan Africa is vast. In addition to being the world's poorest region, Sub-Saharan Africa is also one of the most unequal. In this context, redistribution must be seen as a legitimate way to fight poverty and ensure shared prosperity - and all the more so in countries where growth is driven by extractive industries that are not labor-intensive and often employ very few poor people. Given that most African countries face difficult decisions about how to allocate limited resources among a number of social programs, evidence is important. Do Safety Net programs actually benefit the poorest people? This book demonstrates with empirical evidence that it is possible to reach the poorest and most vulnerable people with safety net programs, and provides lessons for the effective use of targeting methods to achieve this outcome in the region.

Furthermore, the Committee formulated advice on the following aspects: i) overall status of Mediterranean stocks; ii) management of European eel; iii) management of deep-sea fisheries and identification of VMEs and iv) roadmap towards a network of essential fish habitats. In line with the subregional approach and based on the conclusions of the four subregional committees, the SAC also provided specific advice for each subregion. In particular, attention was paid to: i) blackspot seabream in the western Mediterranean; ii) demersal fisheries in the Strait of Sicily; iii) small pelagic fisheries in the Adriatic Sea; iv) demersal fisheries in the Adriatic Sea, including the monitoring of the Jabuka/Pomo Pit fisheries restricted area; and v) deep-water red shrimps in the central and eastern Mediterranean. Droit Des Aides D'etat Dans la CE Jan 26 2023 A uniquely important contribution to the debate on EC State aid, this book captures the direct knowledge and experience of twenty-six current and former Commission State aid litigators, offering detailed 'insider' analysis of EC State aid court cases, as well as related internal legal issues, between 1994 and 2008. It also offers, over and above the specific interest of the contributions it contains, invaluable insights into the working methods of the Commission Legal Service. This collaborative work was conceived and realized by its authors as a mark of recognition, and a gesture of respect and friendship, for Francisco Santaolalla, on the occasion of his retirement from the Commission after fourteen years' service as Director of the State aid team. Among the many legal and economic forces affecting State aid litigation, the authors focus on such factors as the following: A {exports; A {private investment; A {role of economic analysis; A {ecotaxes; A {privatization; A {remedies; A {existing aid; A {third parties; A {actions against State aid decisions; A {national court decisions; A {fiscal discipline; and A {WTO subsidies law. In illuminating the underlying issues, and describing how they are handled by the Commission Legal Service, the authors shed light on the likely future development of State aid law. Challenges of Education Financing and Planning in Africa: What Works and What Does Not Work Aug 28 2020 This volume highlights the proceedings of the two policy dialogue conferences held by the Working Group on Finance and Education (WGFE) in 2004. Part I of the document discusses the endemic crisis that higher education has been beset with since the outset of the post colonial period in Africa. It highlights the critical state of higher education systems in Burkina Faso, Mali, Nigeria and Senegal by scrutinizing the causes, manifestations and consequences of the crisis to posit useful recommendations and possible solutions. Part II is a comprehensive review of the challenges facing the financing and planning of all levels and types of education - from kindergarten to graduate school - in selected African countries. The papers reveal the sources and mechanisms of funding education in Africa, drawing attention to the experiences of communities confronted with new funding sources. A new trend, which consists of designing decade long educational development plans, has emerged and is rapidly expanding in numerous African countries. This experience is examined and shared by the authors. This book has contributions in both French and English.

Le Réglement des différends sur les nouvelles ressources naturelles Mar 16 2022 Between 1988 & 1993 over fifty nations have either enacted new mining legislation, had such legislation pending adoption or were in the process of drafting new or revised legislation. In almost every case, this legislation carried with it changes in the fiscal regimes. The ability to attract mineral investment, be it in either a developed or a developing country, is partly dependent on the legislative & fiscal systems which regulate the industry. In the light of the changes taking place, this new reference work is timely & provides essential reading for those with an interest in mining taxation. The first part of the book analyses general topics which are applicable to understanding the taxation of mineral enterprises, while the second part provides a comprehensive & detailed account of actual taxation systems & methods.

Annuaire Européen 1988 - European Yearbook 1988 Dec 13 2021 The European Yearbook has expanded over the years in keeping with the role played by European institutions compared with national ones. It is an indispensable work of reference for anyone dealing with these institutions, which have become so numerous & varied that no-one can possibly memorise all their acronyms or functions. The European Yearbook provides aids for finding one's way through the labyrinth of these organisations which coordinate a variety of activities in over 20 countries. One of the aids is an 'organisation chart' at the beginning of the documentary section, giving a clear picture of the general situation. A perusal of the many contributions in the volume organisation by organisation, shows the full diversity of the activities which Europe is gradually taking over from national governments, with their consent & financial support. Written in both of the Council of Europe's official languages, English & French, the European Yearbook also contains a general index by subject & name which constitutes a very valuable list of articles & provides direct access to the work's subject matter, regardless of the particular organisation concerned, offering a kind of cross-section of the activities of European organisations.
