The transition from elementary school to middle school can be particularly difficult for boys. Too big to be little and too little to be big, they face the perfect storm of changing bodies, rushing hormones, and learning challenges. They may now begin to struggle with grades, behavior, and relationships with family and friends. Boys are often frustrated and embarrassed by trying to figure out on their own what to do and what not to do in this new environment with new expectations. Jonathan Catherman and his two sons--one current and one former middle schooler--offer boys ages ten to twelve the practical help they need to make the move to middle school as painlessly as possible. The "do this, not that" format covers a hundred relevant topics and situations middle school boys will face, including school lockers, bullies, test taking, cell phone use, homework, gossip, leadership, respect, sports, and many more. AD 50-135) was a former Roman slave who became a great teacher, deeply influencing the future emperor Marcus Aurelius among many others. His philosophy, Stoicism, was practical, not theoretical--aimed at relieving human suffering here and now. Epictetus knew suffering--besides being enslaved, he was lame in one leg and walked with a crutch. The Manual is a collection of Epictetus' essential teachings and pithy sayings, compiled by one of his students. It is the most accessible and actionable guide to Stoic philosophy, as relevant today as it was in the Roman Empire. In Arizona, a notary public is a public officer commissioned by the Secretary of State to perform notarial acts, as defined in the Arizona Revised Statutes (see Chapter 5). A notary, in essence, serves as an impartial witness pursuant to A.R.S. § 41- 328(B). Government offices, businesses and the public rely on the accuracy and integrity of notaries public. This means the notary should take the required steps to authenticate signatures and ensure that all notarizations are properly completed and performed. Many documents require a notarization in an effort to deter fraud, to prove the authenticity of the signature and to ensure that a signature was made willingly and not under duress. Therefore, it's essential that a notary accept a valid form of identification, as defined in statutes, to determine that a signer is who he or she claims to be. Because the prevention of fraud and deception is central to the notary's role, it is essential that a notary have no conflict of interest when notarizing a document.
