Christian Slavery Feb 25 2023 Could slaves become Christian? If so, did their conversion lead to freedom? If not, then how could perpetual enslavement be justified? In *Christian Slavery*, Katharine Gerbner contends that religion was fundamental to the development of both slavery and race in the Protestant Atlantic world. Slave owners in the Caribbean and elsewhere established governments and legal codes based on an ideology of "Protestant Supremacy," which excluded the majority of enslaved men and women from Christian communities. For slaveholders, Christianity was a sign of freedom, and most believed that slaves should not be eligible for conversion. When Protestant missionaries arrived in the plantation colonies intending to convert enslaved Africans to Christianity in the 1670s, they were appalled that most slave owners rejected the prospect of slave conversion. Slaveholders regularly attacked missionaries, both verbally and physically, and blamed the evangelizing newcomers for slave rebellions. In response, Quaker, Anglican, and Moravian missionaries articulated a vision of "Christian Slavery," arguing that Christianity would make slaves hardworking and loyal. Over time, missionaries increasingly used the language of race to support their arguments for slave conversion. Enslaved Christians, meanwhile, developed an alternate vision of Protestantism that linked religious conversion to literacy and freedom. *Christian Slavery* shows how the contentions between slave owners, enslaved people, and missionaries transformed the practice of Protestantism and the language of race in the early modern Atlantic world.

Conversion May 31 2023 A historical investigation of the phenomena of religious conversion from ancient to modern times. This volume explores the subject of religious conversion over broad expanses of time and space, considering cases from the thirteenth through the twentieth centuries and from settings across the world. Leading scholars from a variety of historical sub-fields address the theme at a moment when the utility of the concept of conversion is vigorously debated. The historical settings treated here stretch from thirteenth-century England to sixteenth-century southern India and Andean Peru, from Bohemia to China during the age of the Reformations, from the fifteenth-century Low Countries to seventeenth-century New France and from the nineteenth-century Minnesota borderlands to late colonial Zimbabwe and modern India. The book's broad mixture of examples and approaches will both encourage a deepening of specialist knowledge about particular places and times, and spark new thinking about religious change, cultural appropriations, and interactive emergence across discipline and fields. This book is one of two collections of essays on religious conversion drawn from the activities of the Shelby Cullum Davis Center for Historical Studies at Princeton University between 1999 and 2001. The other volume, *Conversion in Late Antiquity and the Early Middle Ages*, is also published by the University of Rochester Press.

To Sin No More Nov 24 2022 Inside the colleges -- An Atlantic institution -- Recruiting missionaries -- Training missionaries -- Converting the Spanish Atlantic world -- Converting Catholics -- Missionary preaching -- Frontiers *Compel People to Come In* Aug 22 2022 “Compelle intrare”: since the time of St Augustine, St Luke’s words in the parable of the Banquet have served as a justification for forced conversion to Christianity. Challenging this tradition, in 1686 Pierre Bayle denounced how a literal interpretation of the parable had led to a long line of crimes, and argued that “nothing is more abominable than obtaining conversion by coercion”. In recent decades, scholarly research on conversion in the Early Modern Age has increasingly focused on intriguing aspects such as the fluidity of converts’ identity and their crossing of borders – both geographical and confessional. This book takes a different perspective and brings the focus back to the dark side of conversion, to the varying degrees of violence that accompanied Catholic missionary activities in the non-European World in the 16th and 17th centuries. The essays collected here examine three areas where, sometimes visibly, sometimes much more subtly, the violent aspects of

conversion took shape: doctrine, missionary practice, and the conversion narratives. Investigating the connection between violence and conversion is a way to reflect not only on the early modern world, but also on that of the present day, when conversion – including by coercion – has yet again become a significant issue.

Judaism and Its Traditions Jul 21 2022 Excerpt from Judaism and Its Traditions: The Conversion of a Hebrew Rabbi People have asked me many times to tell them of my conversion and the history of Judaism; and I have had so many applications for this, that I could not refuse any longer to write it. This is my first testimony in the five years that I have been in America. I do not mean in sending this testimony of my conversion into the world to convert, or to be honored by it. God forbid! I am sending this to the world because the world needs it. Christianity stands upon testimony, evidence; for Christ Jesus was a testimony, an evidence to the world, sent by His Father to the people. Paul was an evidence for Jesus when, on the way to Damascus, Christ spoke to him and sent him to become the first missionary for Christ. Every prophet was sent by God as an evidence and testimony to the people and kings. They passed through persecutions; they could not help it. It was God who sent them to go through all this trouble. God has never changed His way and order. His program must continue till the world will know all. The same God sent me in 1913, on the 16th day of December, from my Orthodox Hebrew Synagogue to preach the gospel of Christ. It was not I who went; it was He (Christ) who sent me to do the will of His Father. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Searching for Heaven in the Real World Nov 05 2023 Searching for Heaven in the Real World A Sociological Discussion of Conversion in the Arab World While adjusting to a new identity is akin to adjusting to a new set of skin, even more difficult is realising that this new skin may not be as comfortable or as pleasant as the old one. In Searching for Heaven in the Real World, Kathryn Kraft explores the breadth of psychological and societal issues faced by Arab Muslims after making a decision to adopt a faith in Christ or Christianity, investigating some of the most surprising and significant challenges new believers face. Arab Muslims arrive at a point of new faith with great expectations. With such high hopes for what they will experience in their new identity, they are bound to encounter a reality that is different. They need to invest a great deal of emotional energy in addressing their expectations and what they actually encounter. Even so, those who stay the course of faith usually hold on to their dreams, believing that heaven is not only for the afterlife but it is for the real world as well.

Contesting Inter-Religious Conversion in the Medieval World Sep 03 2023 The Mediterranean and its hinterlands were the scene of intensive and transformative contact between cultures in the Middle Ages. From the seventh to the seventeenth century, the three civilizations into which the region came to be divided geographically – the Islamic Khalifate, the Byzantine Empire, and the Latin West – were busily redefining themselves vis-à-vis one another. Interspersed throughout the region were communities of minorities, such as Christians in Muslim lands, Muslims in Christian lands, heterodoxical sects, pagans, and, of course, Jews. One of the most potent vectors of interaction and influence between these communities in the medieval world was inter-religious conversion: the process whereby groups or individuals formally embraced a new religion. The chapters of this book explore this

dynamic: what did it mean to convert to Christianity in seventh-century Ireland? What did it mean to embrace Islam in tenth-century Egypt? Are the two phenomena comparable on a social, cultural, and legal level? The chapters of the book also ask what we are able to learn from our sources, which, at times, provide a very culturally-charged and specific conversion rhetoric. Taken as a whole, the compositions in this volume set out to argue that inter-religious conversion was a process that was recognizable and comparable throughout its geographical and chronological purview.

The History of the Medieval World: From the Conversion of Constantine to the First Crusade Oct 04 2023 A masterful narrative of the Middle Ages, when religion became a weapon for kings all over the world. From the schism between Rome and Constantinople to the rise of the T'ang Dynasty, from the birth of Muhammad to the crowning of Charlemagne, this erudite book tells the fascinating, often violent story of kings, generals, and the peoples they ruled. In her earlier work, *The History of the Ancient World*, Susan Wise Bauer wrote of the rise of kingship based on might. But in the years between the fourth and the twelfth centuries, rulers had to find new justification for their power, and they turned to divine truth or grace to justify political and military action. Right thus replaces might as the engine of empire. Not just Christianity and Islam but the religions of the Persians and the Germans, and even Buddhism, are pressed into the service of the state. This phenomenon—stretching from the Americas all the way to Japan—changes religion, but it also changes the state.

The God That the Poor Seek Feb 13 2022 The assumption that conversion looks the same regardless of culture or religious context is challenged by a growing number of missiologists, both in the Majority World and in the West. In this book, Rupen Das explores the particularities of conversion for some of the world's poorest populations. Sharing the stories of Syrian refugees and Indian slum dwellers, Das positions their voices within a missiological framework of contextualization, seeking to understand what attracts the marginalized to the gospel of Christ. This book is filled with practical insights for those ministering to the world's poor in contexts of missions, development, or local outreach. It also offers a powerful glimpse into the identity of the crucified God who knows human pain and does not turn his back on human suffering.

Sacrifice and Conversion in the Early Modern Atlantic World Jul 09 2021 Il volume analizza la diffusione di testi, musica, immagini, riti e idee relativi ai concetti di sacrificio e conversioni nell'Atlantico della prima età moderna. Quando gli europei arrivarono nel continente americano tra XV e XVI secolo, trovarono pratiche rituali percepite come sacrificali. L'immaginario europeo fu invaso da rappresentazioni dei cannibali tupinamba, aztechi

che estraevano cuori o inca che uccidevano i bambini. In un Europa devastata dalle guerre di religioni che seguirono la Riforma, queste immagini interagirono con l'acceso dibattito intorno alla salvezza, l'eucarestia e il ruolo del sacrificio nel cristianesimo. Il libro illumina questo particolare aspetto delle influenze reciproche tra l'invasione europea del continente americano e la crisi della cristianità durante la Riforma: la concettualizzazione e la rappresentazione del sacrificio. Per via della centralità nelle pratiche e sistemi religiosi, il sacrificio è uno snodo cruciale per comprendere non solo lo scambio culturale, ma anche lotta per il potere tra società americane ed europee in epoca coloniale. Come vengono interpretate pratiche sacrificali diverse dalle proprie e qual è il ruolo di queste interpretazioni nel processo di conversione al cristianesimo? La centralità dell'incontro tra le concezioni europee e americane del sacrificio viene quindi analizzata nei suoi esiti intellettuali, culturali, religiosi, ideologici e artistici.
