A comprehensible and accessible portrait of the various 'languages' which shaped public life in nineteenth century Britain, covering key themes such as governance, statesmanship, patriotism, economics, religion, democracy, women's suffrage, Ireland and India. This deeply informed text sets the government and politics of Britain firmly in the context of Britain's enduring membership in the European Union. Michael L. Mannin thoroughly applies the concept of "Europeanization" across the political system to explore how far change is a product of Britain's interdependent relationship with the EU. Ideal for courses in British and European politics, this book breaks new ground in exploring the complex interdependence that the EU should bring to the study of European political systems. Systematically revised and updated, British Politics is an accessible and definitive guide to the shape of Britain's political institutions and processes. The new edition covers significant developments and events in British politics, such as the financial crisis and the 2010 general election, and provides full analysis of the first year of the Conservative-Liberal Democrat coalition government. Incorporating useful learning aids throughout, the book examines the state of British politics set against the background of devolution within the UK and an ever-changing European and global environment. Key features • 'Comparative politics' boxes highlight differences and similarities with other political systems • 'Academic controversy' boxes summarize debates on key issues • On-page glossary explains key words and concepts • Chapter summaries, questions for discussion and further reading to stimulate and reinforce learning • Illustrated 'key thinker' profiles • A companion website – www.palgrave.com/foundations/leach – containing valuable additional material for students and lecturers This book traces the relationship between the popular press and the Labour Party from the early twentieth century through the Second World War and up to the current day. This comprehensive study describes the major political events of the Twentieth-century in Britain in a cogent, lucid way. William D. Rubinstein presents the history, key personnel, problems and achievements of Britain's administrations, from Lord Salisbury's government in 1900 to Tony Blair's 'Cool Britannia'. Ideal for both students and general readers, Rubinstein's book provides a detailed examination of Britain's political evolution in the Twentieth-century. Fully revised and updated with a brand new, student-friendly design, Dennis Kavanagh's successful British Politics: Continuities and Change provides a classic introductory text for undergraduate students. Widely acknowledged throughout the world as a leading expert on UK politics, Kavanagh has produced a lucid analysis of the British political system, designed for anyone taking a first course in the subject. Written in a clear, accessible style, with a brand new text design for quick and easy reference, British Politics covers all topics covered on undergraduate courses. New features for the Third edition include: ·Two completely new chapters - Britain and Europe and The Mass Media and Politics, plus a re- assessment of the Irish Question in the light of the paramilitary Ceasefire ·New, larger format and a more accessible layout ·Boxed case studies highlighting key issues ·Innovative diagrams and illustrations complementing the text ·Student-friendly features, including essay topics, chronologies, chapter summaries, and guides to further reading Your updated and revised guide to British politics So, you want to be knowledgeable about British politics but don't know where to start? You've come to the right place! British Politics For Dummies is your essential guide to understanding even the trickiest questions surrounding politics in the UK. In no time, you'll have the confidence to discuss the ins and outs of past and present elections, political leaders, parties and ideologies. Packed with understandable information on the origins, history and structure of the UK parliamentary system, British Politics For Dummies offers a fascinating glimpse into the rollercoaster world of politics. Explaining everything from key political ideologies and the spread of democracy to the current election process and the differences between political parties, this hands-on, friendly guide is an ideal companion to British politics and elections. Includes expanded coverage of coalition governments, devolution and independence efforts Provides updated information on UKIP and Britain's place in Europe Serves as a helpful guide to elections and British political parties—electoral systems, voting behaviour and trends and the role of pressure groups and the media Offers a fascinating examination of British politics on the world stage Whether you want to get to grips with British politics and government or build your knowledge beyond the basics, this updated edition of British Politics For Dummies is the place to start. In recent years British politics has seemed increasingly unpredictable. The Conservative Party's return to single-party government in 2015 surprised commentators and the electorate alike, and Labour's choice of Jeremy Corbyn as its leader marked a striking change in direction for the party. Cuts to public welfare and spending have led to growing dissatisfaction among sections of the public, and the increasing popularity of parties critical of the government's immigration, economic and social policies appears to represent a call for fundamental change in British politics. With a question mark hanging over the country's global standing following the EU referendum, and with further calls for Scottish independence, Britain's immediate future seems uncertain. In the 10th edition of this highly acclaimed text, leading authorities reflect on the latest developments in British politics. Drawing on current research, the chapters provide a state-of-the-art, yet accessible, account of British politics today. All the chapters are newly commissioned for this edition and together they provide a systematic analysis of key trends, issues and debates. Topics covered include the legacy of Cameron's governments, the politics of austerity, immigration, and the question of what, if anything, is distinctively 'British' about the British political system. First published in 1990. Routledge is an imprint of Taylor & Francis, an informa company. Using a unique dataset spanning fifty years of policy-making in Britain, this book traces how topics like the economy, international affairs, and crime have shifted in importance. It takes a new approach to agenda setting called focused adaptation, and sheds new light on key points of change in British politics, such as Thatcherism and New Labour. Exploring British Politics is a concise, comprehensive and accessible guide to the subject. Fully updated and revised, the new edition covers the 2015 general election and recent developments in the role of political parties, changes in party ideology, the UK's relationship with the European Union, and the future of the UK itself. Designed to stimulate critical analysis and provoke lively debate, it provides new perspectives on two key themes – the health of British democracy and the transition from traditional models of government to more flexible forms of 'governance'. The special features of the new edition include: Comprehensive analysis of the 2015 general election and the 2014 referendum on Scottish independence A focus on topical controversies, such as the relationship between politicians and the media and the arguments for and against Human Rights legislation Explanation of the ways in which British governments have responded to dramatic social change, and to serious economic challenges in an era of 'globalisation' Extensive guides to further reading at the end of each chapter Whilst it provides the essential historical background for a full understanding of British politics, contemporary issues are to the fore throughout and readers are encouraged to scrutinise what is often taken for granted and to develop their own thoughts and ideas. Whether studying the subject for the first time or revisiting it, Exploring British Politics is the ideal undergraduate text. This book discusses British thought on race and racial differences in the latter phases of empire from the 1890s to the early 1960s. It focuses on the role of racial ideas in British society and politics and looks at the decline in Victorian ideas of white Anglo-Saxon racial solidarity. The impact of anthropology is shown to have had a major role in shifting the focus on race in British ruling class circles from a classical and humanistic imperialism towards a more objective study of ethnic and cultural groups by the 1930s and 1940s. As the empire turned into a commonwealth, liberal ideas on race relations helped shape the post-war rise of 'race relations' sociology. Drawing on extensive government documents, private papers, newspapers, magazines and interviews this book breaks new ground in the analysis of racial discourse in twentieth-century British politics and the changing conception of race amongst anthropologists, sociologists and the professional intelligentsia. Bringing together researchers in modern British religious, political, intellectual and social history, this volume considers the persistence of the Church's public significance, despite its falling membership. Fully revised and updated third edition of a popular, established textbook, providing a definitive introduction to Britain's politics, political institutions and processes. Comprehensively re-worked and re-structured to better align with courses, this new edition places great emphasis on the changing context of British politics while addressing key themes such as the ongoing importance of gender and ethnicity to political and social life in Britain. Furthermore, the book's familiar authoritative style has been retained with a fresh look and revitalized pedagogical features to provide a complete learning package. The book is designed for courses on or related to British politics. Its accessible style and context-setting Part 1 will make it ideal for students new to the field (particularly those who haven't studied the subject at school level or international students), but its rigour will stimulate and engage more experienced students. New to this Edition: - Fully updated to cover the 2016 EU Referendum, the 2017 General Election and other key political developments - 'Politics in Action' videos with key academic experts and practitioners offer differing viewpoints on the political system - Expanded companion website featuring regular updates and additional pedagogic tools for students and

lecturers alike, such as self-test quizzes, flashcards, timelines, a lecturer testbank and lecture slides - Vibrant and engaging full colour page design to help your students navigate the book's broad coverage A history of political debate and theory in England (later Britain) between the English Reformation and French Revolution. This book offers a fresh view of postwar British politics, very much at odds to the dominant view in contemporary scholarship. The author argues that postwar British politics, up to and including the Blair Government, can be largely characterised in terms of continuity and a gradual evolution from a period of conflict over the primary aims of government strategy to one of recent relative consensus. This book provides a provocative and challenging account of the historical background to the election of the Blair Government and will be of interest to a wide audience. Developments in British Politics 9 continues its tradition of providing accessible state-of-the-art coverage, but with an all-new set of chapters by leading authorities. A new feature is a concluding chapter on key theories and debates by Colin Hay. Evaluating the changing role of ideology in contemporary British politics, this book describes contending ideologies and emphasizes their relations to the ideas, institutions, and practices of British political life. Chapters describe the content and applications of liberalism, conservatism, socialism, nationalism, fascism and racism, feminism, Green ideology, the New Right, and New Labour. Specifically British variants are compared and contrasted with international currents of thought. Leach teaches business at Leeds Metropolitan University. Your handy guide to the British political system. An interpretative essay on the British political system looks at the key characteristics and ideas of the British tradition, explores what makes British politics distinctive, and considers how the system continues to evolve. As a survey of recent trends in British politics and a study of what governments can achieve, it will be an essential item in reading lists for British politics courses.' The Times Higher Education Supplement . The Oxford Handbook of British Politics provides the most sophisticated and up-to-date analysis of British politics to date. Essential for all those working in the area. Brexit has changed everything - from our government, to our economy and principal trading relationship, to the organization of our state. This watershed moment, which surprised most observers and mobilized previously apathetic sections of the electorate, is already transforming British politics in profound and lasting ways. In this incisive book, leading analysts of UK and EU politics Geoffrey Evans and Anand Menon step back from the immediacy and hyperbole of the Referendum to explain what happened on 23 June 2016, and why. Brexit, they argue, was the product of both long-term dissatisfaction with the EU and a gradual breakdown in the relationship between parties and voters that spawned detachment, disinterest and disenchantment. Exploring its subsequent impact on the June 2017 General Election, they reveal the extent to which Brexit has shattered the contemporary equilibrium of British politics. These reverberations will continue to be felt for a very long time and could pose a real danger to the health of British democracy if the government fails to deliver on the promises linked to Brexit. Where and who do we want to be? How might we get there? What might happen if we stay on our current course? In The Future of British Politics, comedian Frankie Boyle takes a characteristically acerbic look at some of the forces that will be key in coming years, from Scottish independence and post-colonial entitlement to big tech surveillance and the looming climate catastrophe. Despite his fears that 'soon the only red tape in this country will be across the finish line of the compulsory Food Bank Olympics', he manages to locate some hopeful signs amid the gloom, reminding us that 'despair is a moment that pretends to be permanent'. This brief but mighty book is one of five that comprise the first set of FUTURES essays. Each standalone book presents the author's original vision of a singular aspect of the future which inspires in them hope or reticence, optimism or fear. Read individually, these essays will inform, entertain and challenge. Together, they form a picture of what might lie ahead, and ask the reader to imagine how we might make the transition from here to there, from now to then. The history of British political thought has been one of the most fertile fields of Anglo-American historical writing in the last half-century. David Armitage brings together an interdisciplinary and international team of authors to consider the impact of this scholarship on the study of early modern British history, English literature, and political theory. Leading historians survey the impact of the history of political thought on the 'new' histories of Britain and Ireland; eminent literary scholars offer novel critical methods attentive to literary form, genre, and language; and distinguished political theorists treat the relationship of history and theory in studies of rights and privacy. The outstanding examples of critical practice collected here will encourage the emergence of fresh research on the historical, critical, and theoretical study of the English-speaking world in the period around 1500–1800. This volume celebrates the contribution of the Folger Institute to British studies over many years. Concise, comprehensive and accessible, Exploring British Politics presents an insightful and fresh approach to British politics with a special emphasis on recent developments. Designed to stimulate critical analysis and provoke lively debate, it provides new perspectives on two key themes; the health of British democracy and the transition from traditional models of government to more flexible forms of 'governance'. Whilst framed in a discussion of the essential historical background of British politics, contemporary issues are to the fore throughout and readers are encouraged to scrutinise what is often taken for granted and to develop their own thoughts and ideas. Whether studying the subject for the first time or revisiting it, Exploring British Politics is the ideal undergraduate text. Women and British Party Politics examines the characteristics of women's participation at the mass and elite level in contemporary British politics; as voters, party members and elected representatives respectively. It explores what this means for ideas about, and the practice of, descriptive, substantive and symbolic representation. The main focus is on the feminization of British party politics - the integration of women into formal political institutions and the integration of women's concerns and perspectives into political debate and policy - in the post-1997 period. Not only specifically designed to bring together cutting-edge conceptual developments in the sub-discipline of gender and politics, with robust British empirical research, this book also presents reflections on how best to study gender and politics. The empirical findings which are presented through the extensive use of case studies derive from a range of research projects which were undertaken over a period of ten years, and which make use of a variety of research methods and techniques. This book will appeal to all those with an interest in British Politics, Feminism and European Studies; and will provide the reader with an overview of the complex relationship between sex, gender and politics in a conceptually sophisticated fashion. Thoroughly revised and updated since the second successive Labour election victory in 2001. It is firmly established as the definitive guide to the political map of the United Kingdom, covering in detail each of the constituencies. Elections ask voters to choose between political parties. But voters across the UK are increasingly being presented with fundamentally different, and largely disconnected, sets of political choices. This book is about this hollowing out of a genuinely British democratic politics: how and why it has occurred, and why it matters. Electoral choices across Britain became increasingly differentiated along national lines over much of the last half-century. In 2017, for the second general election in a row, four different parties came first in the UK's four nations. UK voters are increasingly faced with general election campaigns that are largely disconnected from each other. At the same time, voters acquire much of their information about the election from news-media based in London that display little understanding of these national distinctions. The UK continues to elect representatives to a single parliament. But the shared debates and sets of choices that tie a political community together are increasingly absent. Separate national political arenas and agendas still have to interact but in some respects the House of Commons increasingly resembles the European Parliament – whose members are democratically chosen but from a disconnected series of separate national electoral contests. This is deeply problematic for the long-term unity and integrity of the UK. Central Debates in British Politics focuses on British politics in a changing social, economic and institutional context. The book explores issues and debates using a variety of approaches and techniques. It is written and edited by a team of leading experts who analyse key issues in a highly structured and thematic manner. First published in 2003. Routledge is an imprint of Taylor & Francis, an informa company. Although the art of rhetoric is central to the practice of politics it also plays an important role in civic and private life. Using Aristotelian notions of ethos, pathos and logos, this collection offers engaging discussions on everything from Prime Minister's Questions and Welsh devolution to political satire and the rhetoric of cultural racism. The revised and updated eighth edition of the bestselling textbook Politics UK is an indispensable introduction to British politics. It provides a thorough and accessible overview of the institutions and processes of British government, a good grounding in British political history and an incisive introduction to the issues facing Britain today. With contributed chapters from respected scholars in the field and contemporary articles on real-world politics from well-known political commentators, this textbook is an essential guide for students of British politics. The eighth edition welcomes brand new material from eight new contributors to complement the rigorously updated and highly valued chapters retained from the previous edition. The eighth edition includes: · Britain in context boxes offering contrasting international perspectives of themes in British politics. · A comprehensive 'who's who' of politics in the form of Profile boxes featuring key political figures. · And another thing ... pieces: short articles written by distinguished commentators including Jonathan Powell, Michael Moran and Mark Garnett. · Fully updated chapters plus new material providing excellent coverage of contemporary political events including: The Leveson Inquiry, the aftermath of the 2011 riots and the House of Lords reform. · A vibrant and accessible new design to excite and engage students as the work through a variety of political topics. · A new epilogue to the book offering a critical perspective of the trials and tribulations of the Coalition Government, including an overview of the major differences that divide the coalition partners. British Politics in the Age of Anne is a book that anyone with an interest in the period will wish to possess: completely authoritative, yet as attractive to the student and the general reader as to the specialist. The author has both revised the text and written a substantial new introduction to this edition. Geoffrey Holmes reveals how little the structure and contents of politics under Queen Anne had in common with the connexion-ridden scene of the mid-18th century, as portrayed by Namier. He depicts a period of fierce and genuine party conflict, in which society at many levels was divided by great issues of principle and policy. Through frequent and hotly-contested elections and long parliamentary campaigns both Whigs and Tories enjoyed triumphs and suffered disasters. And while struggling against one another, each had to contend with internal factions and pressure-groups, the divisive thrust of personal ambitions and the hostility of the queen to single party rule. British politics in the Age of Anne is more than a major work of analysis and a historiographical landmark. By liberal use of quotation, eye for detail, sense of atmosphere and vivid character sketches of both leading and lesser personae, Professor Holmes recreates the unique political life of the high Augustan age. This book studies the relationship between British government and faith groups in its international development agenda within and beyond the context of Brexit. It includes aspects of International Relations, International Development, and Religion and Politics to trace the relationship between the British government and faith groups, showing that the relationship is enhanced on three conditions: (i) the resurgence of religion in international affairs; (ii) the attitudes of politicians and political parties towards the third sector (i.e. voluntary and private sectors); and (iii) the rising prominence of the international development agenda in British politics. The third condition triggers the need to understand this relationship in the wake of Brexit. Thus, the book aims to analyze to what extent the increasing prominence of an international development agenda in British politics explains the relationship between the government and faith groups, and ultimately whether Brexit has increased the prominence of international development agenda and brought faith groups into closer relations with the

government. Describes the relationship between British party politics and the conduct of British foreign policy between 1933 and 1940. Developments in British Politics 9 continues its tradition of providing accessible state-of-the-art coverage, but with an all-new set of chapters by leading authorities. A new feature is a concluding chapter on key theories and debates by Colin Hay.
